MOHAMMED MUNABEER SHEERIN

Associate AI Engineer | Software Engineer | Python Developer

Matale, Sri Lanka | +94 76 285 4668 | sheerinmunabir@gmail.com
GitHub: github.com/SheerinMM | LinkedIn: linkedin.com/in/sheerin-munabeer

PROFILE

AI/ML and software engineer with nearly three years of hands-on experience across Python, machine learning, REST APIs and cloud-based solutions on Microsoft Azure. Currently working as an Associate AI Engineer while pursuing an MSc in Artificial Intelligence and seeking to grow into a more senior engineering role.

TECHNICAL SKILLS

Programming: Python, SQL, Java, JavaScript | **AI/ML:** PyTorch, TensorFlow, Keras, scikit-learn, pandas, NumPy, OpenCV | **Backend:** FastAPI, Flask, REST APIs | **Tools:** Git, GitHub, Jupyter, Azure, Firebase, SQLite

EXPERIENCE

Associate AI Engineer – Software & Cloud Solutions — Inner Circle IT | Australia | **Remote** | *Mar 2025 - Present*

- Design, build and maintain AI-enabled software and cloud solutions using Python and Microsoft Azure.
- Contribute to application features and backend services, working alongside cloud engineering colleagues.

AI & Software Engineering Intern — Inner Circle IT | Australia | **Remote** | *Oct 2023 - Feb 2025*

- Supported AI and software development tasks in Python and cloud tooling; progressed to an Associate AI Engineer role.

Associate Software Engineer (Contract, Part-Time) — Spotto AI | Remote | *Aug 2025 - Oct 2025*

- Supported cloud backend services and built ETL data pipelines with Azure Service Bus and Blob Storage in Agile sprints.

Software Engineering Intern — MindReading Technologies | Remote | *Jun 2025 - Jan 2026*

- Developed web application features in JavaScript; assisted with debugging, testing and code reviews in an Agile team.

SELECTED PROJECTS

FakeGuard - Fake News Detection — Python, FastAPI, RoBERTa, BERT, XGBoost github.com/SheerinMM/fakeguard

- End-to-end fake news detection with transformer classification, a FastAPI backend and SHAP explainability.

Brain Tumour MRI Classification — TensorFlow, Keras, EfficientNetB0 github.com/SheerinMM/brain-tumour

- Four-class MRI classifier with 91.62% test accuracy and 0.983 mean ROC-AUC using transfer learning and augmentation.

AI Gesture-Based Communication System — TensorFlow, OpenCV, MediaPipe, Flask github.com/SheerinMM

- Real-time gesture recognition prototype for speech-impaired children with REST API integration.

EDUCATION

MSc Artificial Intelligence (In Progress) — University of Bedfordshire | Expected Mar 2027
BSc (Hons) Software Engineering, Second Class Upper — University of Bedfordshire | 2025
Higher National Diploma in Information Technology — SLIIT City University | 2022 - 2024

LANGUAGES

English (Fluent) | Sinhala (Advanced) | Tamil (Native)
